

Reporting and Dashboard Setup

Dashboards and Reports Navigation

Date	
Project name	virtual agent-driven SLA breach awareness and justification system
Team ID	SWTID-2026-4945
Maximam Marks	

Project Title:

virtual agent-driven SLA breach awareness and justification system **Steps**

Involved in Dashboard and Reports Navigation:

Step 1: Navigate to Reports

- Log in to the ServiceNow instance.
- In the **Filter Navigator**, type **Reports**.
- Select **Reports → View / All** to access the Reports module.

Step 2: Create or View Reports

- Click **Create New** to create a new report.
- Select the data source (such as the Incident table).
- Configure filters, columns, grouping, and chart type.
- Save and generate the report.

Step 3: Navigate to Dashboards

- In the **Filter Navigator**, type **Dashboards**.
- Select **Self-Service → Dashboards** or **Dashboards → View**.

Step 4: Create a Dashboard

- Click **New Dashboard**.
- Enter the dashboard name, such as **SLA Performance Dashboard**.
- Save the dashboard.

Step 5: Add Report Widgets

- Click **Add Content**.
- Select the reports created earlier.

- Add charts, graphs, scorecards, or list widgets to the dashboard.

Step 6: Configure Dashboard Layout

- Arrange widgets according to user requirements.
- Resize and organize the dashboard for better visualization.

Step 7: Save and Publish

- Save the dashboard configuration.
- Publish it so authorized users can access real-time SLA information. **Step 8: Monitor**

SLA Performance

- View live dashboards to monitor SLA compliance, breach trends, justification status, and incident performance.
- Use reports for performance analysis and management decision-making

DASHBOARD AND REPORTS NAVIGATION

Dashboards and reports provide insights into SLA performance, breaches, and justifications.

1 Reports Navigation

Navigate to Reports > Overview to access all available reports.

2 Dashboard Navigation

Navigate to Dashboard > Overview to access all dashboards.

What You Can Do

- ✓ Create, view, and manage reports
- ✓ Schedule and share reports
- ✓ Access dashboards for SLA, Incidents, Justifications and Performance
